High- performance oxygen sensors based on euiii

High-Performance Oxygen Sensors Based on Eu III Complex/Polystyrene Composite Nanofibrous Membranes Prepared by Electrospinning

Electrospinning for high performance sensors in

Language English. Publication Cham : Springer, 2015. Physical description 1 online resource : illustrations (some color) Series Nanoscience and technology.

Effects of carbon structure orientation on the

Abstract. High-performance enzyme-based glucose sensors were prepared by electrospinning carbon fibers. The efficiency of the glucose sensor was assessed based on

Electrospinning - biomedical applications

electrospinning for food packaging, sensors and Synthesis and characterisation of new polymeric materials with high performance Nanotechnology applications in

A review on polymer nanofibers by electrospinning

interlaminar toughness of a high performance Electrospinning is an old technology, fibers via an electrospinning technique. Nanotechnology

Electrospinning for high performance sensors
